2016 OSHA TRAINING!

Project BEST Safety Consultant Ty Lollini of 1949 Consulting, LLC will be conducting the class listed below for Project BEST contributors in WHEELING at the OVCEC safety training room located at 21 Armory Drive in Wheeling, WV and in STEUBENVILLE at 626 North 4th Street, (IBEW Hall) Steubenville, OH. Please note which location the class is being held.

OCTOBER 25 THRU 28: 30 HOUR IN WHEELING

PRE-REGISTRATION IS MANDATORY! CLASS SIZE IS LIMITED TO 20 PERSONS.

CONTACT LISA AT: (304) 214-9800 OR AT LISA@PROJECTBEST.COM.

Reminder: All safety training classes will be **FREE** to Project **BEST** Contributors.

**No shows who have made reservations
will be charged \$25.00.**

Even though OSHA has no expiration date on the 10 and 30 hour safety training cards, they might be considered by our customers as outdated, requiring you to obtain a new card. You are advised to check accordingly before you go to the work site.

Other Training Information: The 10-hour, 30-hour and specific type training classes can be provided by contacting the safety consultant and scheduled so long as (5) or more persons are scheduled for attendance and advance notice of one week is made with the instructor. Locations for training will be dependent upon availability and suitability of training space accommodations.

Safety Consulting Services Available

Compliance with the General Industry and the Construction standards is a necessity and, quite often, is difficult to understand what actually constitutes compliance or, just as important, "is my company working towards compliance with the proper safety programs".

This memo is being sent out as a reminder that the safety services of Project **BEST** Safety Consultant Ty Lollini, 1949 Consulting LLC, are available to you, *FREE OF CHARGE*, as a contributing firm to help you ascertain compliance with the OSHA standards.

Reach out if you need a specific service such as: safety inspections, safety program evaluations, safety training, safety policy and procedure, interpretation of a specific standard, or how to handle an OSHA violation/citation.

All work is confidential.

Contact Ty at 740-461-0004 or through the Project **BEST** office at 304-214-9800.

Safety Doesn't Happen by Accident

SAFETY FIRST.....

**THE SAFE WAY IS
THE BEST WAY**

OSHA Recordkeeping Reminder

1. OSHA 300 Log

- a. Used to classify work-related injuries & illnesses and to note the extent and severity of each case.
- b. Employers must keep a log for each establishment or site.
- c. If you have more than one establishment you must keep a separate log and summary for each physical location that is expected to be in operation for one year or longer.
 - i. There is no penalty for maintaining an OSHA 300 Log at sites not in operation for less than one year.
 - ii. Example:
 1. Your main office is in Wheeling and you have a construction site in Moundsville that will be in operation for more than a year, then a separate OSHA Log must be maintained.

2. OSHA 300A Summary

- a. Shows the total for the prior year.
- b. Must be posted in a visible location so that your employees are aware of the injuries & illnesses occurring in their workplace.
- c. Must be signed by a company executive.

3. OSHA 301 Incident Information

- a. Within 7 calendar days after you receive information that a recordable work-related injury or illness has occurred, you must fill out this form or an equivalent.

4. Reporting of Accidents

- a. All employers are required to notify OSHA when a fatal accident occurs, or suffers a work-related hospitalization, amputation, or loss of an eye.
- b. An in-patient hospitalization, amputation, or eye loss must be reported within 24 hours of learning about it.
- c. A fatal accident must be reported within 8 hours of finding out about them.
- d. OSHA hotline # 800-321-6742

Remember "0 accidents" is a process not only a slogan.

It is imperative that all labor and management affiliates of Project BEST be aware of the importance of this weekly safety reminder page which serves as the vital communication link between the Project BEST Safety Committee and all contributing members, **especially those working in the field**. This safety reminder can be easily copied and distributed via each employer's internal mailing system such as a paycheck envelope or equivalent method. Your assistance in this matter is greatly appreciated. Thank you!
